SPENCER J. COX  
Lieutenant Governor

# State of Utah

## DEPARTMENT OF NATURAL RESOURCES

BRIAN STEED  
Executive Director

### Division of Parks and Recreation

JEFF RASMUSSEN  
Division Director

Internship Opportunities:

**State Parks Pod Cast development:** We need to share our park message out on the airwaves. Utah State Parks has a great story to tell and I believe if we can get our podcast out there many people will listen and in turn visit our beautiful state parks. We're looking for an outgoing student who has an interest in development of a podcast from the ground up. Learning how to host and broadcast our pod. It will be a great way to meet many folks in our division. We want to be the first pod cast in State Parks.

**Dark Skies Coordinator:** We are on the cusp of greatness at East Canyon State Park. We are in the final stages of the application to become a Dark Skies Park. We're on the home stretch and just need an intern help get us there. We need a student who is willing to work independently as well as assist with hosting star parties. We need someone who has a passion for space. Someone who will enjoy my trekkieness. It should be a fun and worthwhile project.

**Special Event Coordinator:** East Canyon is always trying to find a fun new event that the public would like to participate in. From races to ghost hunting we need a student to help get the events organized and executed. We will have a lot of exciting opportunities to learn event planning and hosting the public. We need a student who will be willing to speak to volunteers, business leaders and other community organizers.

**Underserved Outreach Coordinator:** We want to work with our local underserved populations around the park. Our goal will be to create a program in which we can visit local Jr. High and High school age children to educate them about job opportunities in Natural Resources, and State Parks. The second approach will be to find the barriers that keep underserved populations from enjoying our state park. It may include hosting specialized events or getting community supported program.

For more information please email or call me.  
Thanks
